

StriXion

See More with Less
Lower exposure while
reducing reliance on CT

SEE MORE IN A SINGLE IMAGE

StriXion's 17"×24" detector captures more anatomy in a single image with its expanded field of view.

BIG INSIGHT, SMALL SPACE

Deep, detailed images without the need for large rooms or long waits for a CT scan—bringing clarity to emergency care with lower exposure.

SMOOTH & FAST WORKFLOW

StriXion's tomosynthesis see beyond standard X-rays, combining speed and depth to keep emergency rooms and hospitals moving efficiently.

HIGHLIGHT FEATURES

DIGITAL INTERFACE

Positioning guide with easy to understand visuals for accurate patient setup.

SMOOTH ARM MOVEMENT

Motorized height adjustment. Manual rotation for quick patient positioning.

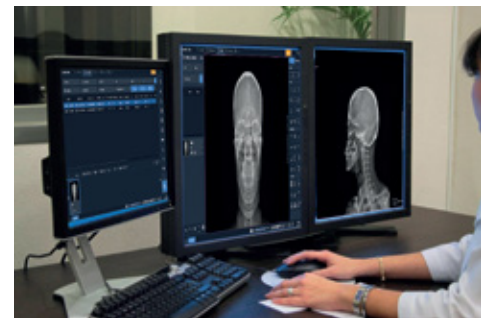

FLEXIBILITY

Wide range of positioning options.

ExamVue™ DTS Suite Acquisition Software

ExamVue™ Duo is a powerful X-ray imaging software built to deliver reliable performance and exceptional user support. Designed to streamline every step of the radiographic workflow, ExamVue™ Duo brings speed, precision, and simplicity to modern medical imaging.
